Elementary School

EXPERIENCE

Freelance / Project-Based Web Developer 2025 – Present

- Built responsive websites and web apps for personal projects and small clients using HTML, CSS, JavaScript, Python, and Django.
- Handled back-end logic, databases, and clean UI end-to-end — from concept to deployment.

Project Experience

OJT Monitoring System Project Leader, Collaborator

- Built a Django app for OJT students to log attendance via facial recognition, track time progress, and submit daily narrative reports.
- Implemented a coordinator dashboard to monitor attendance, narrative reports, and overall progress.
- Integrated OpenCV for camera-based facial recognition attendance.

Stack: Python, Django, MySQL, OpenCV

Satori Spa — Massage Spa Booking System Sole Developer

- Developed a Django booking platform where customers browse services and book appointments online with email confirmations.
- Created a staff admin dashboard to manage bookings, services, therapists, and track monthly revenue.

Stack: Python, Django, MariaDB, HTML, CSS, JavaScript

TECHNICAL SKILLS

Front End	HTML, CSS, JavaScript
Back End & Database	Python, Django, C++, MySQL, MariaDB, SQLite
Frameworks & Tools	Django, Git, GitHub, OpenCV, Networking, Cybersecurity
